

Did you come up with any of these words?

# If you did, you are right!

- That site is a mess! Well, there are a lot of bad websites out there on the Internet. In fact, anyone can publish anything on the Internet.
- Why does this concern you, you ask? Well, imagine your teacher gave you a research project. She told you to go on the Internet and find out information. She said to make sure you use good, valid and reliable websites. How do you know what those sites are? What makes a website good or bad? In this lesson, you will find out!
