Food Chain

- 📄 Order in which animals eat plants and other animals.
- 📄 Each part of a food chain is a link connected to other links.

Herbivores

 Herbivores are animals that only eat plants.

Carnivores

- 📄 Carnivores are animals that eat meat.
- 📄 Carnivores will also eat animals that eat plants.

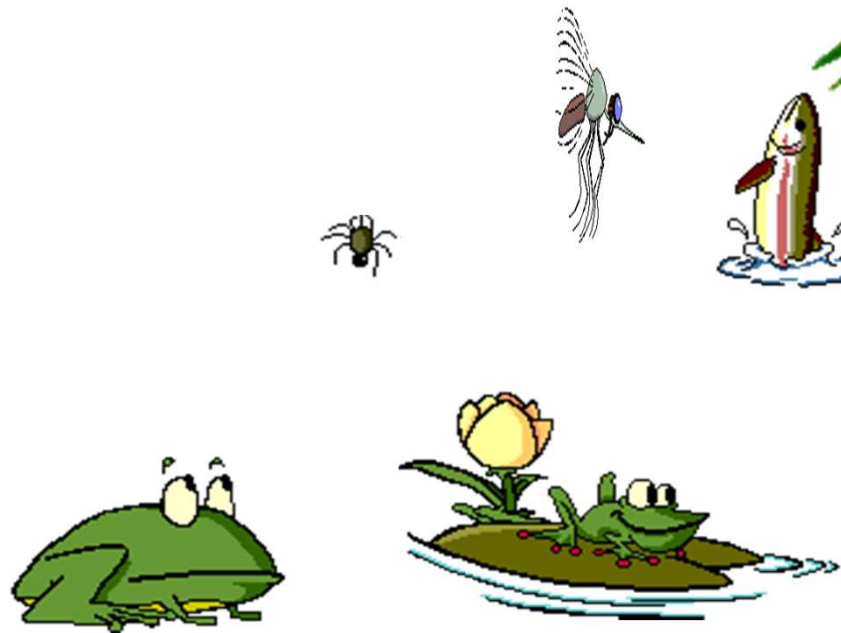

Omnivores

- 📄 Omnivores will eat both plants and animals.
- 📄 Some animals eat both plants and meat.
- 📄 People are omnivores

Insects eat plants

- 📄 Insects eat plants.
- 📄 Fish, frogs, and birds eat the insects that eat the plants.
- 📄 This begins the food chain.

Birds, Animals and People Eat Fish

📄 Birds and other animals eat the fish. The fish eat the plants and insects.

📄 People eat fish too.
